

Playing, learning, experiencing for a lifetime!

GRIMM'S
Spiel und Holz Design

Main Catalogue 2013/2014

WE GUARANTEE:

Our wood is only sourced from sustainably managed forests in Europe. We use alder, lime, beech and maple trees.

All colors and oils we use are certified in accordance with the EN 71 and CPSIA/ASTM 963 standards. They are completely harmless.

Our fabrics are Oeko-Tex certified.

If you clean our products only use a damp cloth. Please do not submerge in water and do not use disinfectant or hot water.

For us, it is important to achieve minimal packaging because we do not want to contribute to worldwide packaging waste any more than absolutely necessary to ensure safe transport.

ESPECIALLY MARKED:

Most of our products are also suitable for therapeutic work in many ways. This symbol denotes the product has been successfully tested in therapy.

This symbol denotes the product is made in cooperation with handicapped people.

This symbol denotes a product recommended by »spiel gut« (good toy guide). See references in catalogue.

This symbol denotes the product is a winner of the »Parents' Choice Gold Award«. See references in catalogue.

This symbol denotes the product is especially suited for older children and adults.

Welcome

Dear Customer,

We would like to encourage everyone involved in children's education to try to be an **educational artist**. In addition, we would like to offer with our products the opportunity to explore a broad spectrum of important topics. With the aid of our products, we would like to **bring nature and the world a bit closer** to children of all ages.

Simple and reduced design will enable children to explore their own creativity and will leave room for their own creations.

Our intention is to create educationally valuable toys on the basis of Waldorf education, whose aspects we try to incorporate in our product design. In addition, you will also find influences of the **Montessori education** principles in our design.

We always want to stimulate the **sensory perceptions** with our products in many different ways.

All the things we feel very strongly about we share in a little coloring book: **Grimm's Little Rainbow Coloring Book**. Herein we tell children and adults the story of our Rainbow: How it comes into existence, who is involved in this process and what is so special about this Rainbow. Having said that, it could be any of our products, not just the Rainbow, and the message would remain the same: **Now you understand your toy is part of nature and therefore unique. Will you be able to find out what makes it unique?**

Playing, learning, experiencing for a lifetime! That is the basis for all our being. This is why we develop wooden toys ideas for people of any age and not only for children up to the age of 12.

Products that we feel are especially suited for older children and adults are marked with **Grimm's Black Label**. This is to put the focus on the importance of artistic education for children and to encourage adults to become creative again and again – to take time off from the daily routines. Simply take a break from the linear and target-oriented thinking and wander off in a world that does not follow strict logic. Discover how beneficial it can be to create small works of art. Your soul will be delighted and your thoughts will drift away in new directions.

We wish you lots of fun with our new ideas and we hope that you will also explore what makes us so unique.

Sincerely,
Sven & Elke Grimm

About Us

The company

GRIMM'S is a family owned company which develops, manufactures and sells wooden toys worldwide.

The headquarters staff in Hochdorf, Germany does all the design work, the surface finish and treatment, assembly, quality control, packing and shipping.

Woodworking is outsourced to a few independent shops in Europe only.

For many products, assembly and packaging is done successfully in cooperation with sheltered workshops in Germany. These products are labeled throughout the catalog.

Our products are only sold in accordance with our T&C, which you will find in the actual price lists and on our website www.grimms.eu.

Reseller may issue a purchase order for Products for administrative purposes, provided that, any terms and conditions contained in any such purchase order that conflict with, or are in addition to, those set forth within these Terms and Conditions, will not apply to the order and will be null and void.

Design

Our intent is to design toys, whose simple and reduced design together with beautiful colouring and inviting surface feel are well suited for all ages – products that are played with over and over again.

Why wood?

We love wood because it is a natural product and always carries individual marks that end up in our products and make each of them unique.

We mainly use alder, lime, beech and maple wood only from Europe and from sustainable resources. Wood provides many different sensory experiences. It has grain or texture, is sometimes dark and the next time bright, it is hard or it is soft. It is rough or smooth, warm or cold. It smells great. It sounds different, is heavy or light. Bacteria cannot grow on wood. If something breaks, it can be glued. Wood fits into the natural cycle without any problems, which is not true at all for plastic or metal.

Most our products are sanded by hand, which gives them a different look and feel versus machined products.

Quality

We are certified in accordance with the ISO 9001:2008 quality standard.

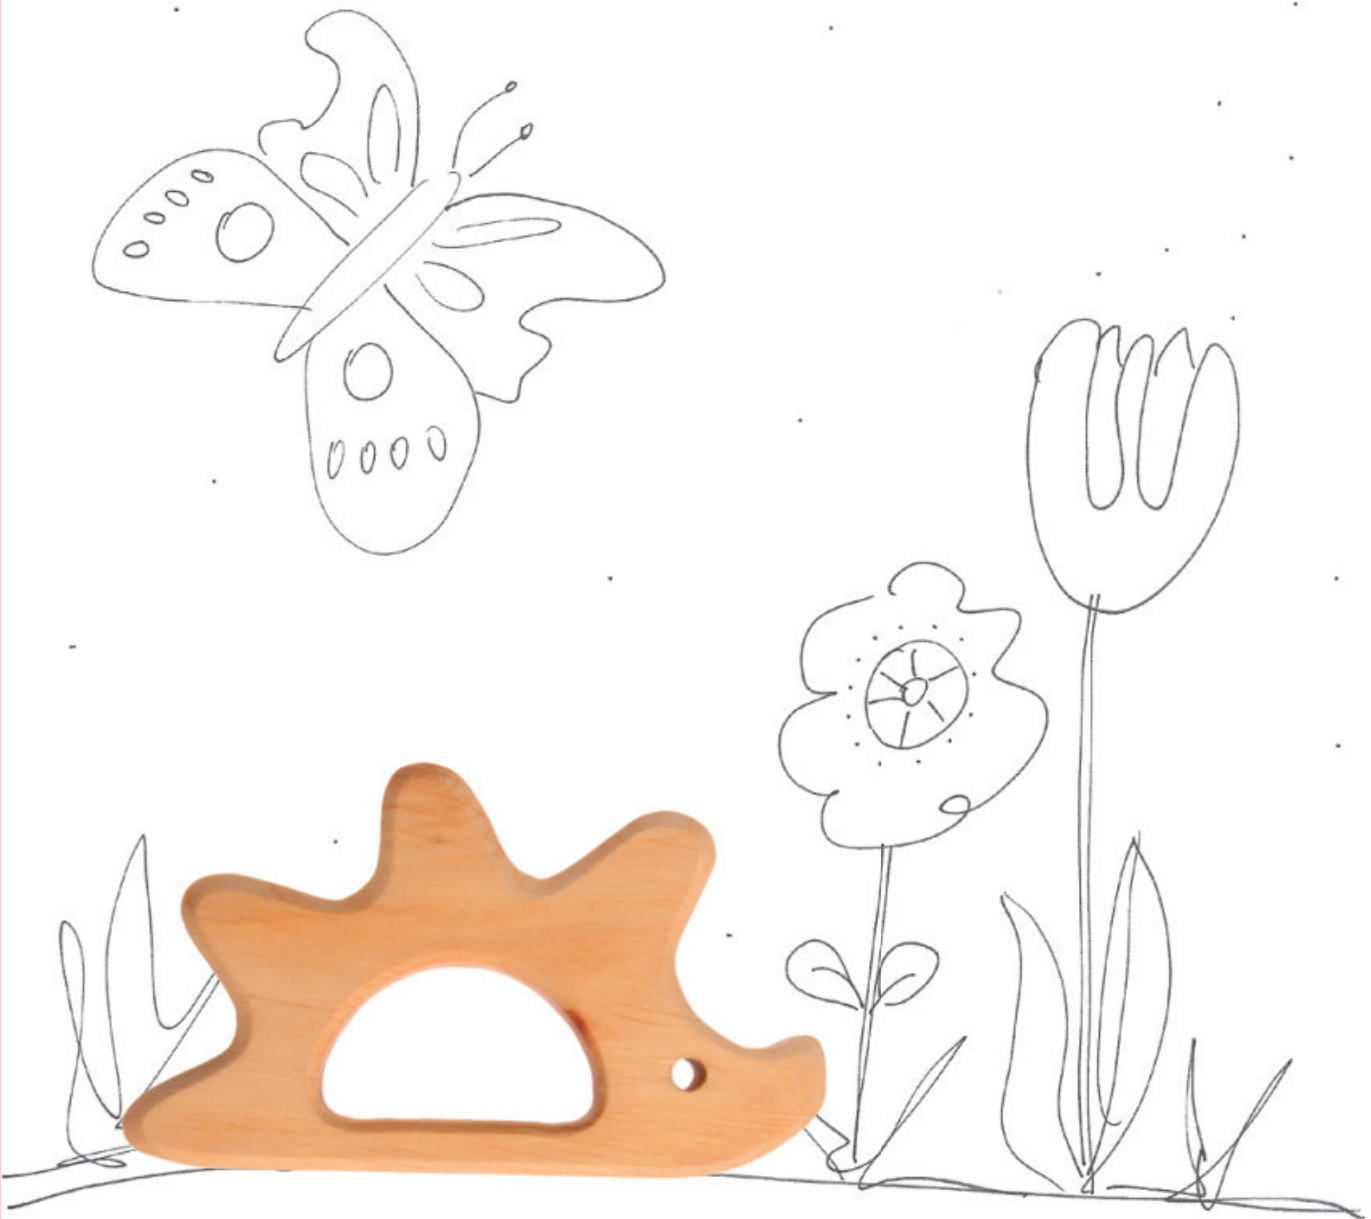

All colours and oils we use are certified in accordance with the EN 71 and CPSIA/ASTM 963 standards.

Reservation

All rights reserved for any changes in colour and form.

Rattles and Grasping Toys

Do you remember how wood tastes? **We do not need additives for wood**, therefore it is ideal for teething rings, rattles and grasping toys for our small children. Its surface binds humidity because it is open and rough. On this dry surface bacteria cannot grow – they die. In addition, some types of wood have special properties which have germicidal effects.

Wood gives many **different sensory experiences** - wonderful for small children: It has grain, and it's sometimes lighter or darker. It is hard or soft, rough or smooth and smells nice. It sounds different, is heavy or light and feels good in our hands with its warmth and distinct surface.

Therefore, our products are not painted which ensures that **all the positive characteristics of wood are preserved**. For hygienic reasons, it is sufficient to wipe the products once in a while with a damp cloth.

Rattles

FILLED WITH PRECIOUS STONES

08000 Fish, L = 11cm

So that nothing gets lost: you can combine nearly all our grasping toys and rattles easily with our pacifier chains! (See page 8)

WITH BELLS

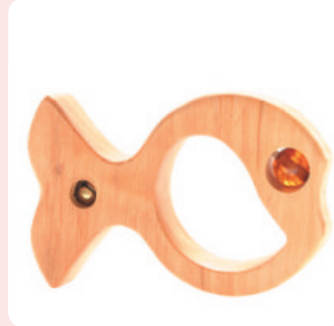

08070 Cube, L = 5cm

WITH WOODEN BEADS

08504 Mini rolling wheel, Ø=6cm

WITH AMBER AND BELL

08006 Amber Fish, L = 8,5cm

WITH WOODEN RINGS, L = 8cm (or as indicated)

08150 Pyramide

08120 Large Rings

08130 Small Rings, red

08131 Small Rings, blue

08140 Hexagonal

08005 Fish, L = 9cm

08004 Cat, red, L = 10cm

08003 Cat, blue, L = 10cm

STARS WITH WOODEN RINGS AND BEADS, Ø = 8cm

08011 Star

08012 Star, pink

08013 Star, blue-green

BIRTHDAY RATTLES WITH SEMI PRECIOUS STONES, L = 9cm

There are different stones relating to the star signs. We have chosen those which are affordable and easy to handle.

Just look on the web or in a book what effects the stones have!

08300 Magnesite: Aquarius

08310 Agate: Pisces

08260 Serpentine: Aries

08210 Aventurine: Taurus

08220 Tiger's Eye: Gemini

08230 Rose Quartz: Cancer

08240 Jasper: Leo

08250 Amethyst: Virgo

08200 Red Jasper: Libra

08270 Obsidian: Scorpion

08280 Sodalith: Sagittarius

08290 Rockcrystal: Capricorn

08612 Pink-Orange

08610 Blue

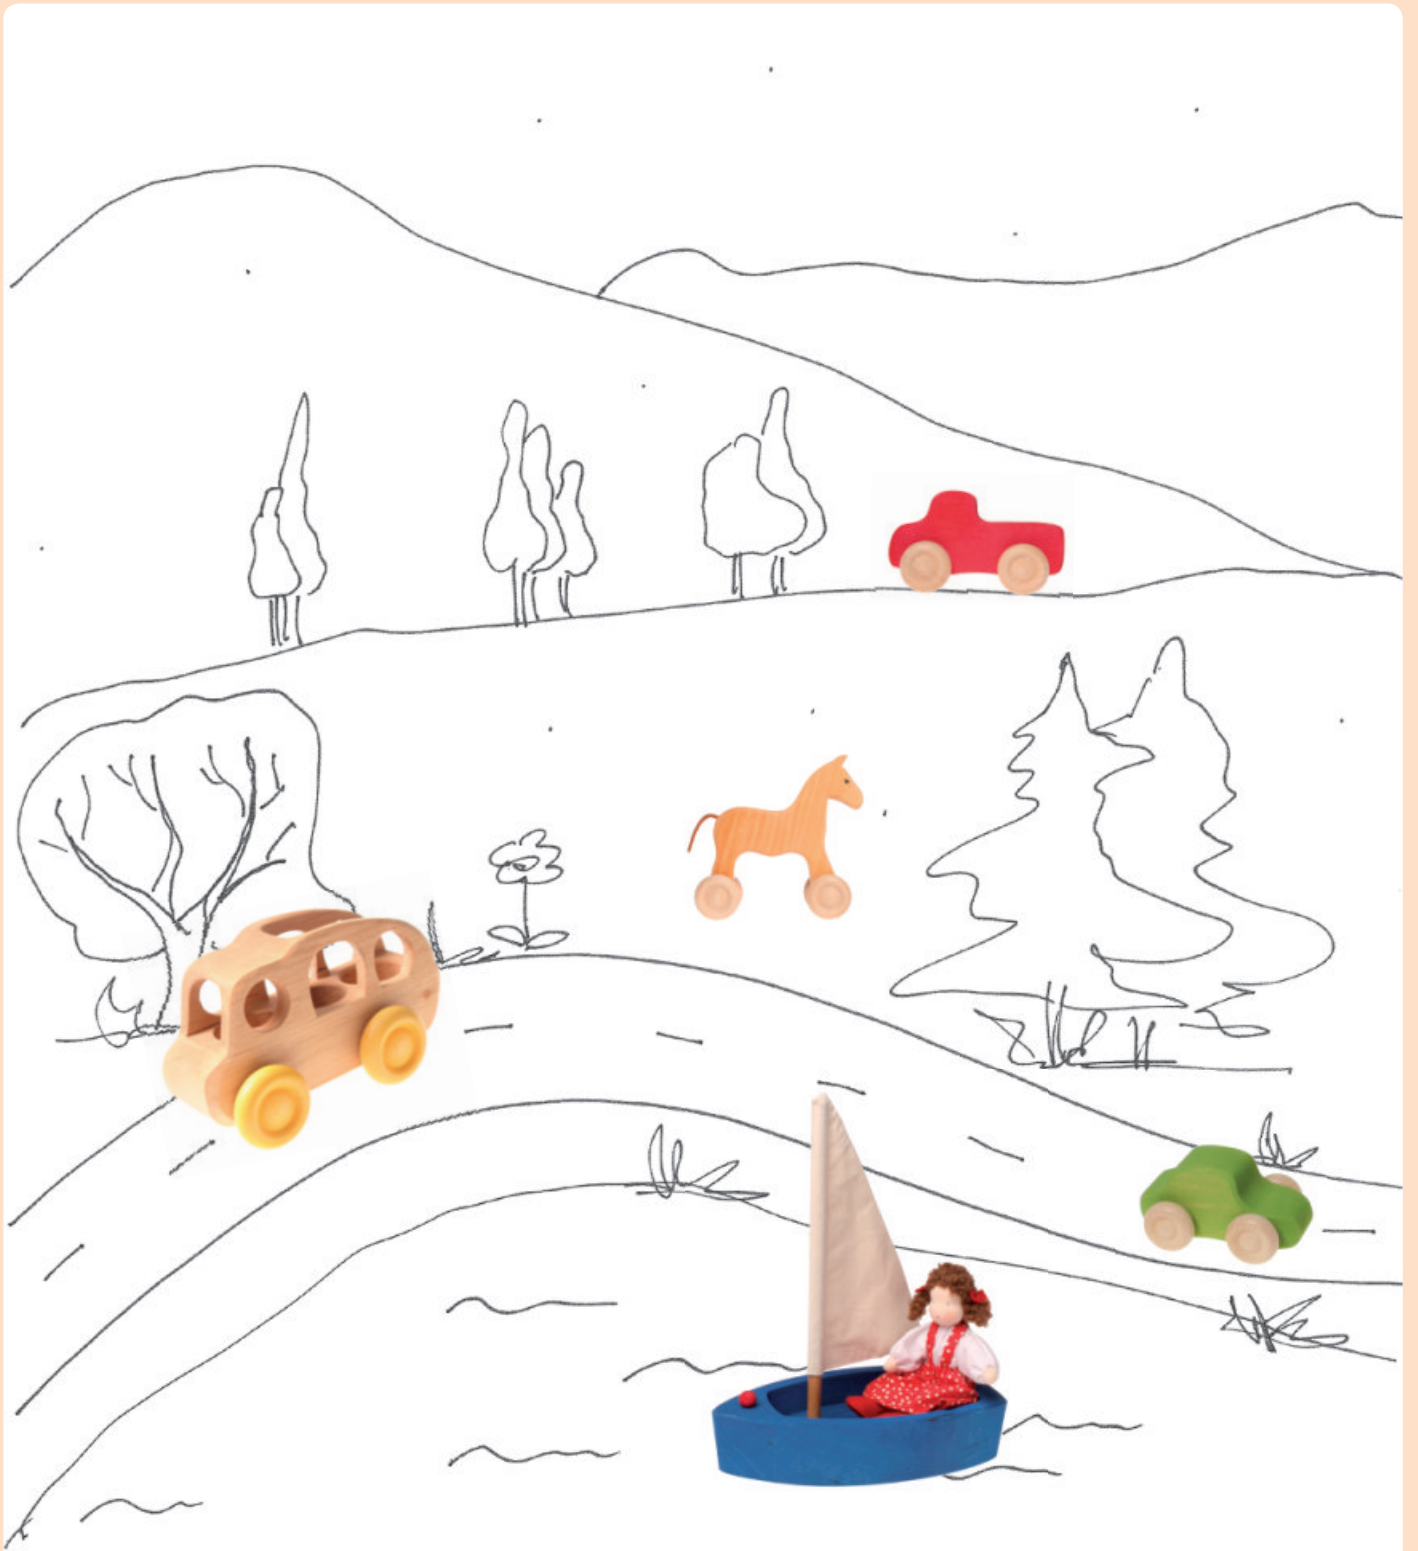

08611 Blue-Green

PRAM CHAIN WITH SEMI PRECIOUS STONE, L = 35cm

08630 Rose Quartz

Animals and Vehicles

We will **become mobile** ... and if children have learned to walk, they like to pull something behind them. Our rugged vehicles are impressive, simple in design and easy to load. They work quite well off-road and are suitable for rides in the countryside. Vehicles don't need a full car wash after that, but can easily be cleaned with a wet towel.

Our wooden sailing boats are absolutely floatable and qualified for bathtubs. When drying, please do not put on a heater, as this may cause cracks in the wood - simply let dry at room temperature.

Our racers on brass wheels love wood and parquet floors and other flat floors because then they find optimal conditions for their robust characteristic and maximum speed can be reached. These little race cars will even survive car crashes without major dents.

With our building set convoy of cars, future car mechanics can fine tune their motor skills, because this certainly requires intuition.

Moving Animals

FOREST FRIENDS, L = ca. 14cm

09200 Squirrel

09201 Rabbit

09202 Hedgehog

09203 Mouse

09204 Bear

12020 Tractor with Trailer
L = 37cm

10884 Mobile Car World
15 pieces, 14x22,5cm

See what's inside this small garage: 2 cars, a car lift with ramp, drive-through car wash with ramps, gas pump to fuel two cars, repair shop, sales rack, trolley-jack, gauge for tire pressure, toolbox, oil can and a stool. The 15 pieces are held together by an orange felt cover and the garage is easily transportable with two cotton cords.

09320 5 Small Sporty Cars with brass wheels, L = 8cm

09300 6 Cars, natural, L = 10cm

09310 6 Cars, coloured, L = 10cm

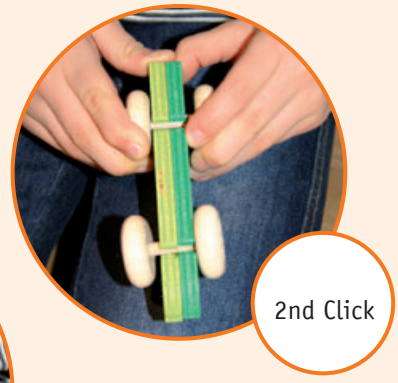

Vehicles

1st Click

2nd Click

Trains the fine motor skills of young car engineers: For example, 4 wheels, 2 dowels and one or more wooden car slices make a first car. There are many different combinations possible because you can change colour and/or thickness of the cars you create. And car-sharing is easy with friends!

Easy to handle: Press the back axel of the chosen car slice into place by pressing it up into the car (1st click), then press it towards the back of the car (2nd click). Repeat with the front axel ... and the car is built.

Tip: Start with one car slice. The more slices you use, the more difficult it gets to handle.

BUILDING SET FOR A CONVOY OF CARS

09490 Sport Cars

09491 Beetle

09492 Bus

09493 Pick-up

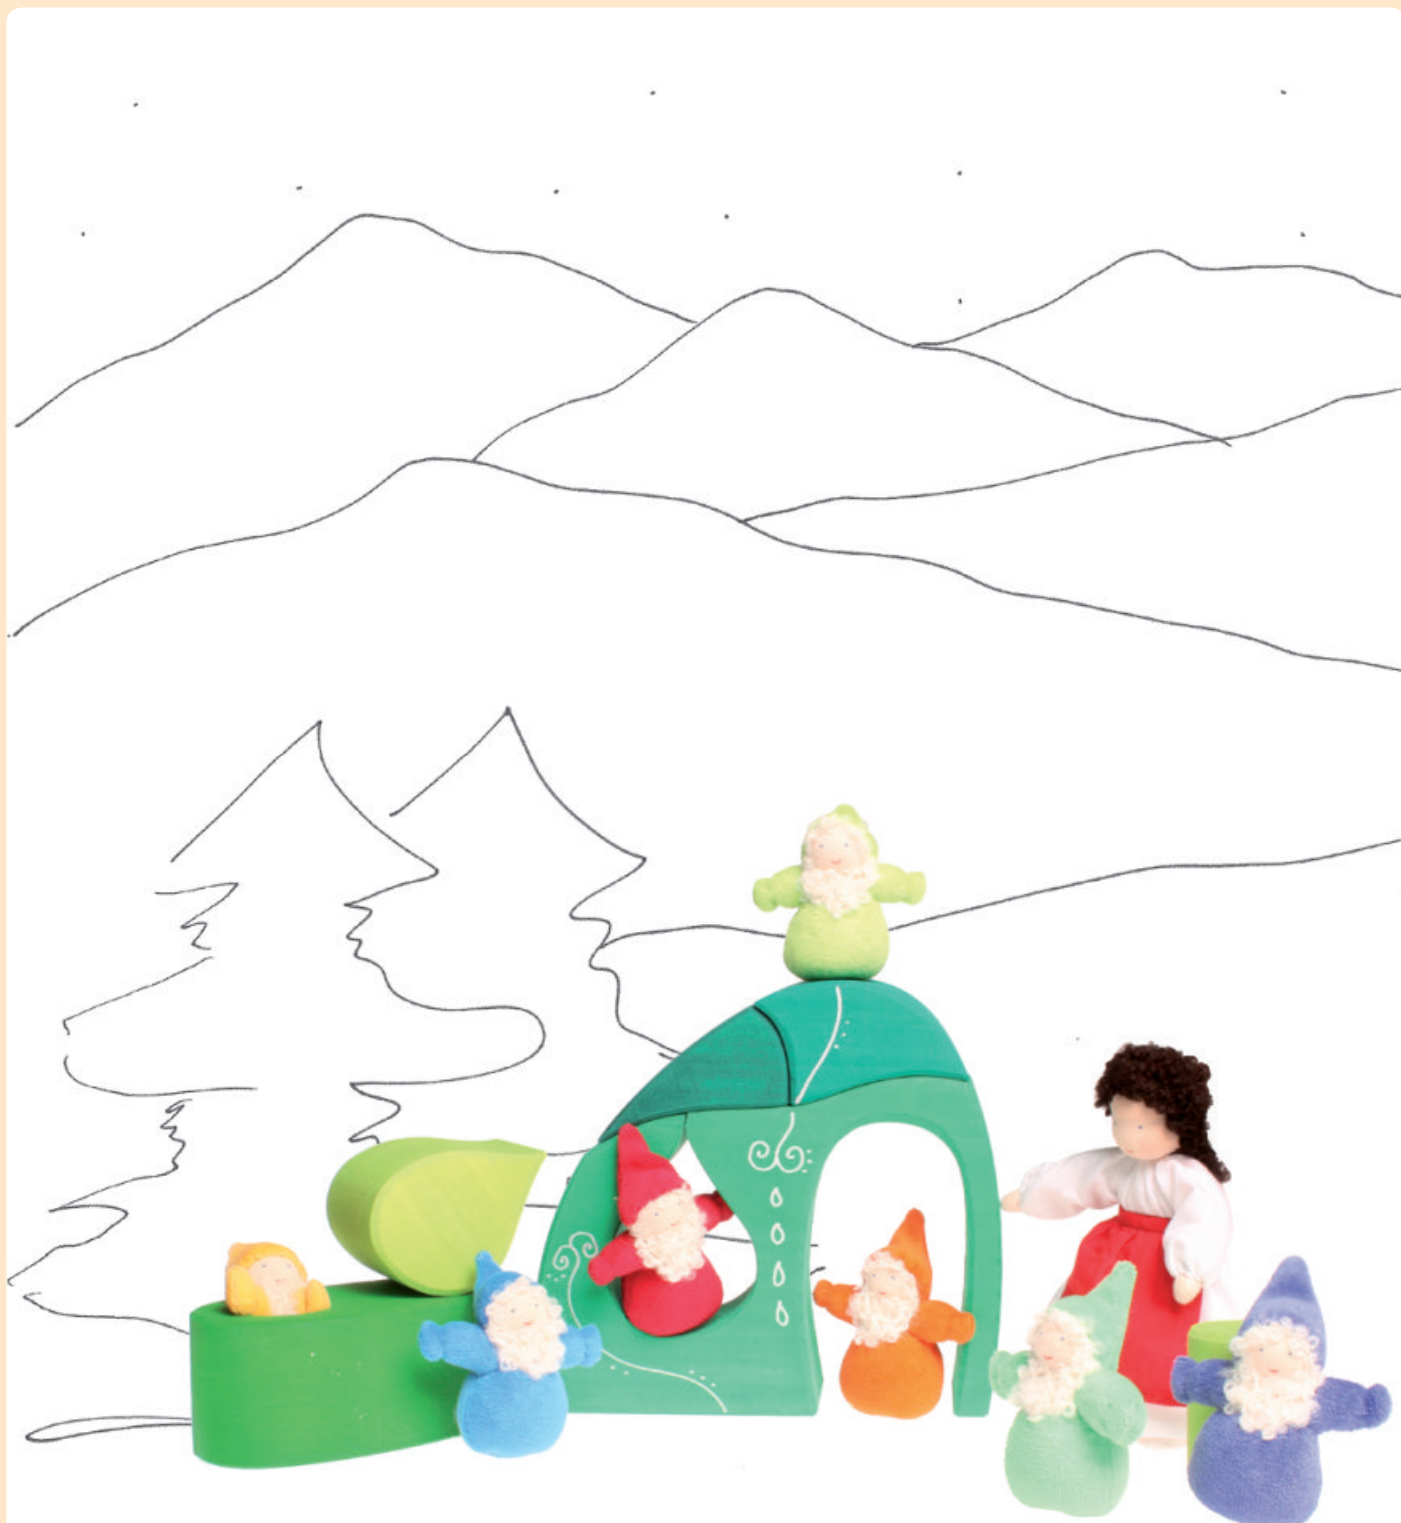

09494 Limousine

09495 Extension Set Wheels and Dowels

In cotton bag:
5 wooden car slices L = ca. 13,5cm, 8 wooden wheels,
10 wooden dowels in 5 lengths (for building cars in different widths)

Dolls And Their Homes

Our dolls are **made in Europe in the traditional handcraft** method. The very loving faces are also painted by hand, giving each doll a **unique expression**. Only certified **fabrics according to Oeko-Tex Standard 100** are used for these dolls and they are all stuffed with wool.

Fantastic Houses: our Fairy Tale Village 07400 is wonderful for playing with all our Dollhouse Dolls and Dwarfs!
(See page 43)

Things to Stack

Our versatile **all-rounder accompany** children throughout childhood: At first disassembled, stacked and sorted, **new ways of building** can be found and new interesting game and combination options will develop. One time a doll bed or even a dollhouse, next time a fence or a zoo. It is exactly the reduced or minimalist design which makes up the very special charm of our products. **The fewer details that are given, the more room there is for your own imagination.**

Watching children play with our stacking games you will soon realize, that less is really more!

Wooden Beads and Necklaces

Wooden beads are one of the most **basic play materials** for children. While threading, the **eye-hand coordination** is stimulated and **fine motor skills** are trained.

As a result of the 12 rainbow colours of our wooden beads and discs, almost **endless play and craft forms arise**. Particularly in combination with other products of our program many new ideas will develop. Also seasonal changes or monthly changes can be easily understood using the 12 rainbow colours (see page 76).

Building Blocks

In addition to the **classic geometrical building sets**, we have many **free forms**, which are **inspired by nature**. These fantastic building blocks **open new possibilities in building and creating**, in combination with traditional elements, again and again new and exciting worlds of experience – using a completely new design language. Not only building blocks for future architects should offer that versatility!

An outstanding characteristic of all our building blocks is the rough surface, which arises because we use color glaze that infiltrates into the wood fibers, leaving a rougher, not so glossy surface. The individual parts are dipped by hand into the glaze and intentionally we do not put a final protective coating on it to **preserve the positive characteristics of wood**.

This guarantees that they hold much better onto each other while playing and building and that they do not slip as easily.

If the components over time start to acquire some patina, simply wipe with a damp cloth or just dip in water, so that the fine wood fibers arise on the surface again.

A great combination for the building blocks are our Creative Puzzles to build wonderful worlds! Here with our Sparkling Mandala 43082 (page 51), Fairy Taile Village 07400, Colour Castle 07500, Building Set Shapes and Colours 10065, Earth 10740, Waterwaves 10720, Beer Mat Game 40360, Dwarf Village 07300.

Classic Building Blocks

WALDORF BLOCKS IN NET BAG, EACH 15 PIECES

Through the irregular shapes of the Waldorf Blocks, fantasy and creativity flourishes. There is no limit to the creative ideas. As the surface is raw and unvarnished it enables even smaller children to build their first towers.

Each of our Waldorf Blocks is sanded down by hand and therefore have no sharp edges or corners.

10150 Curves, 30 pieces
2-4cm thickness

4x4cm Building Sets

Here combined:
 Cars 09310 (page 16),
 10216 Four Elements
 (see this page), 40360
 Beer Mat Game (page 39)
 and Diamond 43066
 (page 50).

Our 4x4 building blocks consist of many different sets, all in the same 4cm thickness. They complement each other perfectly and can be combined in countless ways. These 4x4 sets make ideal room »decor« as they invite everyone to play.

Frames in the same size can also safely be stacked on top of each other. Since our blocks are not varnished, they do not fall apart easily when they are being stacked. Playing with the blocks also helps develop spatial skills.

56 pieces, H = 30cm, Ø = 30cm

10180 Colour Charts, 30 pieces
10190 Colour Charts, 60 pieces

40376 Colour Charts-Rally
58 Colour Charts,
16 Stepped Blocks,

Limitless designs!
Our 29 colour chart pairs open up a world of creativity and help children develop a new appreciation for colour. A wonderful accessory to all of our building sets.

THESE FOUR ITEMS ARE A WONDERFUL BUILDING SET COMBINATION FOR EVERY KINDERGARTEN!

10200 Basic Building Set
30 pieces, L = 44,5cm

10201 Supplement
Building Set
46 pieces, L = 44,5cm

10206 Rainbow Circle
10 pieces, Ø = 44,5cm

10155 Conical Tower
10 pieces, Ø = 44,5cm

The most common form of African architecture is a round hut with a tapered top made of brick earth or stone. This building set is designed to develop a feeling for this construction method. In conjunction with the Rainbow Circle one can build conical constructions up to 40cm in height.

Explore Geometry

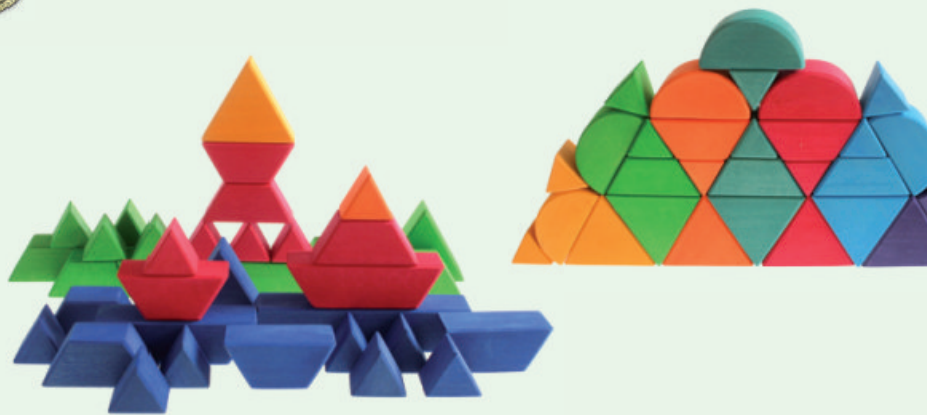

Find out while playing how one element relates to the others.

EXPLORE FIVE GEOMETRICAL BASIC FORMS

10218 Building Set Trapezoid
84 pieces, Ø = 53cm

BUILDING SET SHAPES AND COLOURS

Seven colours and nine different geometrical forms offer a wide range of colour, coordination and building combinations.

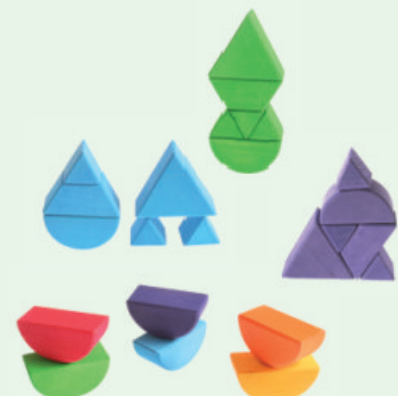

Ideal for Kindergarten: For example, each child chooses a colour and everyone builds his/her own house until a small colourful city of houses is created.

10065 Building Set Shapes and Colours, part 1
5 stacking wooden frames, 31x11cm, 70 pieces

10066 Building Set Shapes and Colours, part 2
4 stacking wooden frames, 31x11cm, 42 pieces

THE BASIC FORMS

10160 Triangles, Square, Circle
30 pieces, ca. 10cm
incl. ideas for playing

Build animals figures, combine basic shapes, and so much more to explore...

GRAPHICAL GAME WITH SHAPES, 25 PIECES, L = 22,5cm

10136 Geo-Graphical, Red

10137 Geo-Graphical, Pink

10138 Geo-Graphical, Blue

10139 Geo-Graphical, Green

Fantasy Building Blocks

07312 Casa Coral
4 pieces, 13x17cm

07314 Casa Aqua
4 pieces, 14x20cm

07316 Casa Glora
4 pieces, 21x19cm

07317 Casa Sole
3 pieces, 21x13cm

07318 Casa Luna
4 pieces, 13x21cm

Fantasy Building Blocks

Whimsical houses allow children to re-enact their favorite fairy tales. Plus, each house can be used as a dollhouse room and works wonderfully with all of our building blocks, creative puzzles (from page 47) and dollhouse dolls and furniture (from page 20).

GRIMMS FAIRY TALE VILLAGE

07400 Fairy Tale Village, 17 pieces
Blue House H = 16cm, Rose Tower H = 29cm,
Forest House H = 18cm

DWARF VILLAGE

in a Set:
07300 Dwarf Village, 28 pieces

07320 Tower Roses
4 pieces, H = 19cm

07330 Tower Drops
3 pieces, H = 18cm

07340 Tower Leafs
3 pieces, H = 15cm

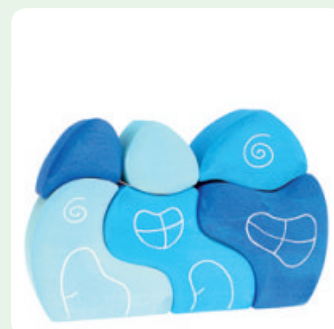

07350 Gnome's House
4 pieces, H = 12cm

07360 Onion House
2 pieces, H = 12cm

07370 Bakery
3 pieces, H = 11cm

07380 Wave Houses
6 pieces, H = 12cm

07390 Gnome's Bungalow
3 pieces, H = 10cm

2x2cm Building Sets

Our 2x2 building block family consists of many different small building sets, all of the same 2cm thickness. They complement each other perfectly and can be combined in many different ways.

Because of the smaller size of the building elements, a certain amount of skill is necessary to succeed. Therefore children over 3 years old and grown ups will have more fun.

These smaller building sets are also perfect to play on the table, where wonderful buildings can arise or different marble games (see the image on the next page) can be played with alone or together with friends.

IN WOODEN CASE WITH PLEXIGLASS COVER

10215 Romanesque
62 pieces, L = 22cm

10202 1001 Nights
45 pieces, L = 22cm

10207 Rainbow
35 pieces, L = 22cm

IN A WOODEN FRAME

42080 Stepped Pyramide
100 pieces
L = 22,5cm, H = 2-10cm

42100
Stepped Counting Blocks
100 pieces, L = 22,5cm

Build and play. Create different things and experience the difference in size. Learn the correct order of the rainbow. Develop spatial skills.

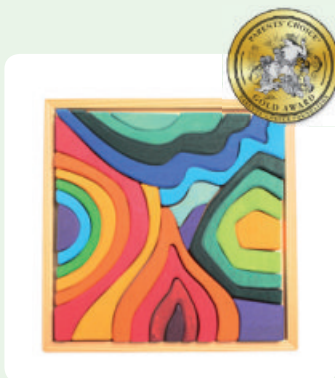

You'll find other products for math which fit perfectly with the Stepped Counting Blocks on pages 63-64.

2x2cm Building Sets

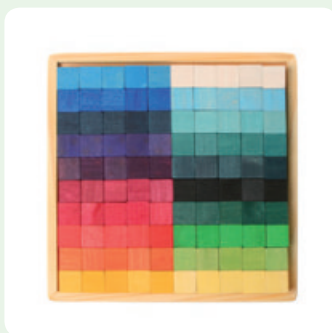

Here combined: Stepped Pyramid 42080 and Building Set Four Elements 10217.

10217 Four Elements
23 pieces, L = 22,5cm

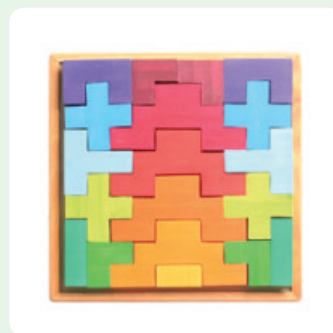

43500 Landscape Puzzle
14 pieces, L = 28cm

42140 Mosaic Square
100 pieces, L = 22,5cm

42050 Wooden Sticks, Square
60 pieces, L = 32cm

10210 Coloured Stairs
19 pieces, L = 22,5cm

10070 Curves, L = 5-12cm
30 pieces in net bag

Bridges

10686 Rainbow bridge, coloured
L = 41cm

Look for Cars on pages 15-17.

10684 Rainbow bridge, natural
L = 41cm

10685 Rainbow bridge, blue-green
L = 41cm

10450 Bridge, 5 pieces
L = 84cm

10400 Bridge, 3 pieces
L = 64cm

Creative Puzzles

This is where the path becomes the aim! Just once take a break and get involved with the creative forces inside of you. Without any specific idea or plan, the images will easily arise.

Make pictures with blocks and pieces that can also be played with later on or just enjoy the creative process.

These creative wooden puzzles come in two sizes: The **large puzzles** are actually made of **solid wood** and are mainly buildings block sets with many different types of pieces and blocks. Even small children have their joy of building, even if they can't piece together the original form until many years later. Finally, it is always exciting to discover what other things there are to explore besides a given form.

The **mini games** are intended as a table game for older children and adults. So that the created images and mandalas bring pleasure for a longer time, we recommend the layout board. Here, the small works of art can be preserved when the table space is needed for other activities.

Be prepared: to **create images that give form to the imagination** without having the pressure to start or finish a master piece. Here there is also a wonderful opportunity for working on something together. Applicable also for the therapeutic area.

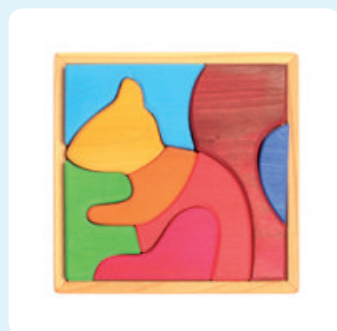

First Creative Puzzles

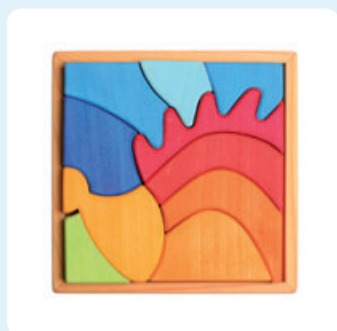

Recommendation
1+

H = 2cm

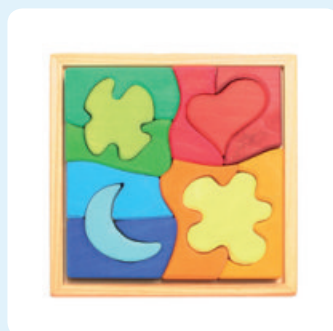

For toddlers, it's not about the puzzle being rebuilt in the right way. It's more about discovering what could be rebuilt or created with the wooden pieces.

43721 Squirrel
8 pieces, L = 18cm

Magnet Puzzles

Make **room for your own creativity - stretch your imagination!** Create artwork of any size, that can be redone or changed at any time.

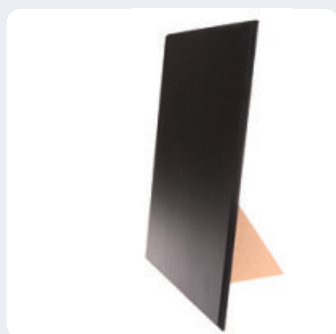

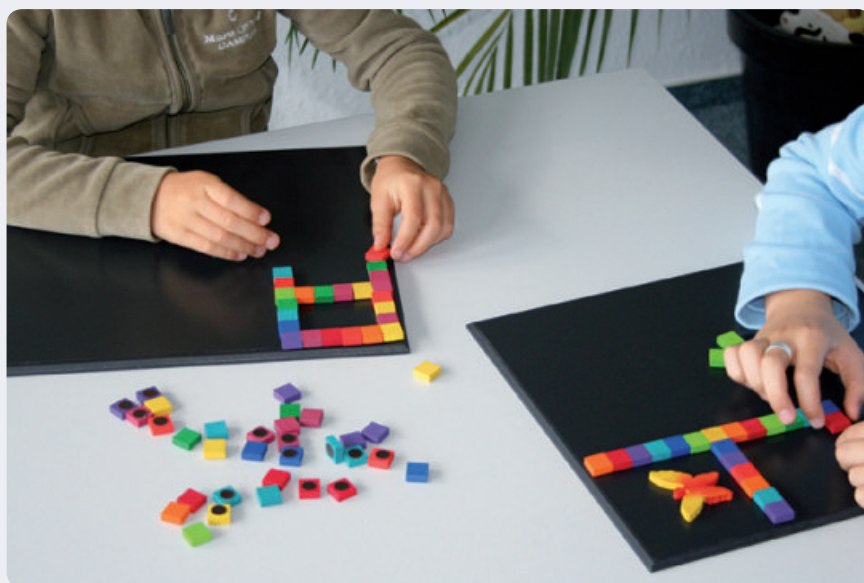

All our magnet games come in a black tin box, which can be used immediately for play. It is even more fun to have more room available for free form design. We offer frames in many different sizes or in our briefcase to go.

All those magnet games can be combined and complemented with each other to **arrange amazing large pictures.**

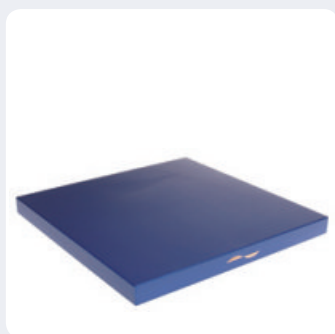

Black Boards

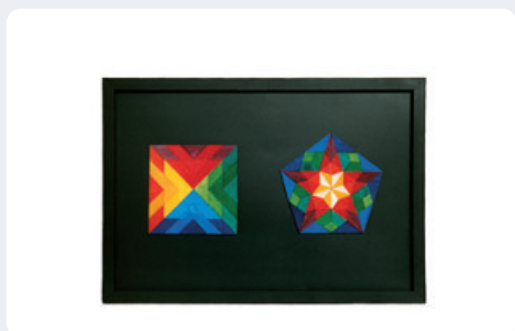

Creativity needs room to develop. The more room provided, the more creativity will flow. Our magnet boards and magnet cases allows enough space to design with fantasy and creativity!

Play and Learn

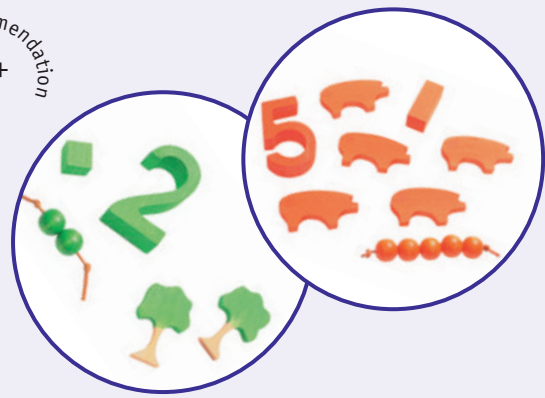

- »Playing is learning«, that is why there is no absolute dividing line and every product within our range has an educational fit as well as play use. However, in the following chapter we tried to outline products, that offer notable learning effects, for example by **illustrating mathematical correlations and making them tangible** at the same time. Everything that can be captured with both the hands and the eyes will be understood and memorized more easily.

Easy Counting

All games shown on this page fit perfectly together. Children can discover the more abstract world of numbers in many different ways by playing and by simply using their different senses.

So they can put together what belongs together and thereby discover the world of numbers.

Recommendation
3+

GRIMM'S WORLD OF NUMBERS – LEARNING HOW TO COUNT BY PLAYING

Fits perfectly to our Stepped Counting Blocks! (42100, page 44)

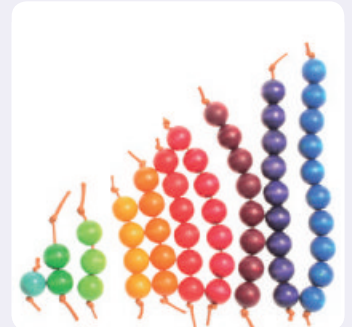

60340 Building Set Numbers
11 pieces, carton box
H = 8cm, thickness = 2cm
incl. ideas for playing

60310 Building Set Numbers
11 pieces
Frame with felt inlay
(ideal for kindergarten)
H = 8cm, thickness = 3cm
incl. ideas for playing

03070 Figures for Counting and Story Telling
in wooden box with plexiglass cover, 55 pieces
incl. ideas for playing,
H = 8cm, thickness = 2cm

10234 Bead Stairs
in cotton bag
55 beads, Ø = 20mm,
incl. Strings for threading + instruction

EASY MULTIPLICATION

42101 Learn and Practice Multiplication only available in German! fits to our Stepped Counting Blocks! (42100, page 44) 16 pages + 10 Counting Tables

42320 Counting with Colours, 30x30cm

200 small number plates (size 3x3cm) in 15 different colours, 2 shifts in a wooden frame, including detailed instruction with many helpful suggestions and playing versions.

Explore and learn geometrical forms, the time on the clock, weaving patterns ...

Easy Counting

NUMBER PLAYING CARDS

32 beautifully illustrated cards to help your children learn their numbers and strengthen their math skills.

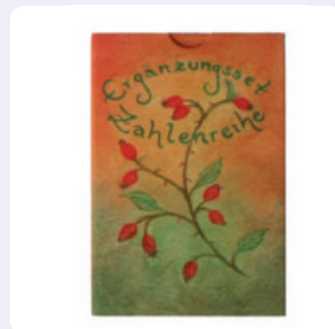

Every Number is clearly represented with the quantity of animals referring to the Number. Even for small children it is easy to understand that two rabbits plus seven butterflies are as much as nine mice. This easy understanding of the numbers by playing helps later on for higher math.

NUMBER RANGE UP TO 100

42330 Counting Up To 100
33x24cm

100 math blocks in 4 colours:

42331 Info Card Set for
Counting Up To 100
Only available in German!

From the practice for the practice! Very suitable for primary school pupils experiencing difficulty with math.

The Author is Annette Bauer, who works as a learning therapist, speaker and author. In 2008 she was one of the winners of the competition »Mathe erleben« (experience maths) in Germany. The presented ideas for playing (only in German!) are the result of her work with primary school children over many years.

ANCIENT CHINESE PUZZLE FORM

43695 Tangram, orange-pink
7 pieces, L = 20cm, H = 2cm

43696 Tangram, blue-green
7 pieces, L = 20cm, H = 2cm

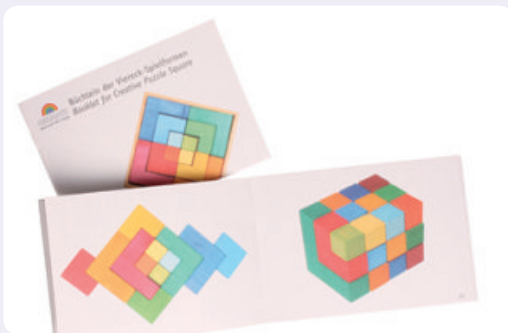

43697 Booklet for Tangram
40 pages, DinA6

These coloured Tangrams and the appropriate templates will make it easier to enter into the world of this ancient Chinese form puzzle.

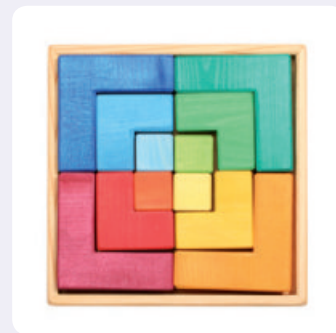

The colours should make it easier to read the templates, without losing the meaning of the silhouette. After this it will be much easier to read the classical black shadow templates for Tangrams.

CHALLENGING PUZZLE FORMS

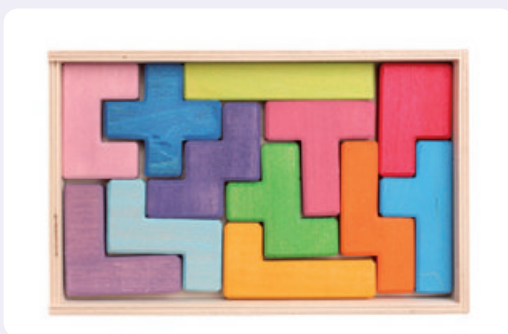

43211 Booklet for Creative Puzzle Square
40 pages, DinA6

Classic puzzle in cubic form. Beginners can follow two dimensional templates, more advanced players will enjoy the challenges of the cubic templates. 20 templates in all.

43210 Square
12 pieces, L = 20cm

10182 Pentomino
12 pieces
in a wooden box with plexiglass top

Pentomino is the name of 12 different figures that can be created with 5 squares. With them, one can build many 2D and 3D pictures.

Easy Counting

EXPLORE GEOMETRY

Wonderful reflections perform magical new images over and over again. Only a few building elements will grow on that stage to a huge, complex building. Additionally, this will also help to visualize and understand the geometry of mirror reflections.

Combined with Octagon 43380, page 53.

80011 Magical Mirror Stage, small
22x22cm

(Here combined with Circle Autumn 43343 and Circle Winter 43344 page 55.)

80010 Magical Mirror Stage, large
44,5x44,5cm

(Here with Hexagon 10183, page 73.)

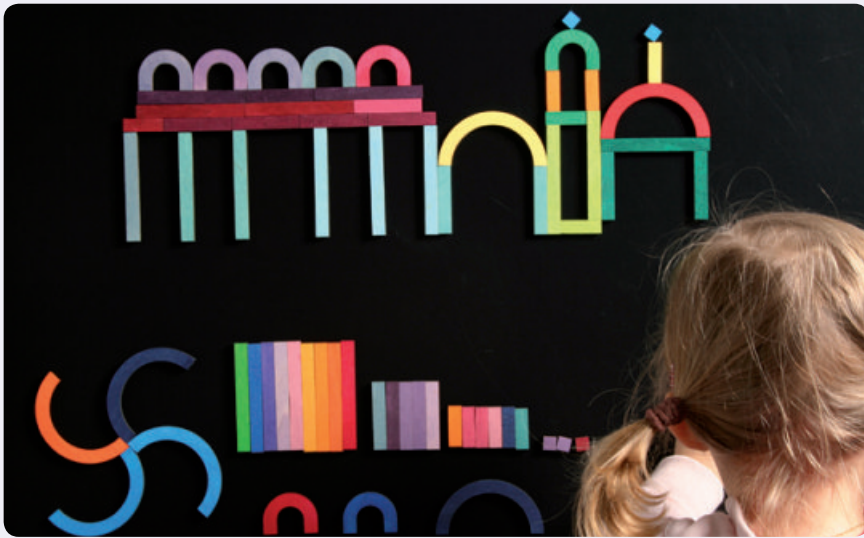

43700 Pythagoras Puzzle
70 pieces, H = 1cm
L = 6cm from red Square

Playing Instructions: All pieces are divided equally between players. One player begins by laying down the large red square. Each player in turn tries to match a piece to the previous players piece. If a player can't go they miss a turn. Who will be the first to put down all the pieces?

32 Cards, 7x10,5cm

Which sound belongs to which letter? With the endearing animal drawings on our ABC-cards, children connect picture, word and sound. These colourful cards invite word building and fun games, making a child's early reading experiences truly delightful.

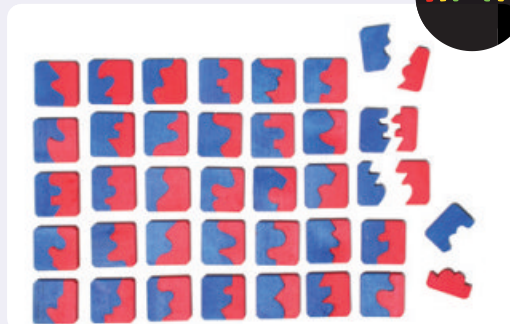

Memo Games

GAMES WITH SHAPES AND COLOURS

40375
Domino Geometrical Shapes
incl. ideas for playing
28 pieces
Charts 4x8cm, H = 1cm
14 Colours with
7 geometrical motives

40000 Konkave Finds Convex
incl. ideas for playing
+ sandtimer und 1 cotton bag
72 pieces, 36 squares, L = ca. 4,5cm, H = 1,2cm

For every blue piece there is only 1 red piece which fits to make a complete square. Strategy is developed here when the eye learns to find the right piece. The game is easier when starting with less pieces and becomes more difficult when more pieces are added. It becomes even more difficult when you have to guess the shape out of a small bag. Instructions for variations of the game included.

42120 Game Coloured Rows
20x18,5cm

3 or 4 pieces of one colour have to be placed in 1 row, horizontally, vertically, or diagonally. Each player gets a point for a row. The winner is the one with the most points.

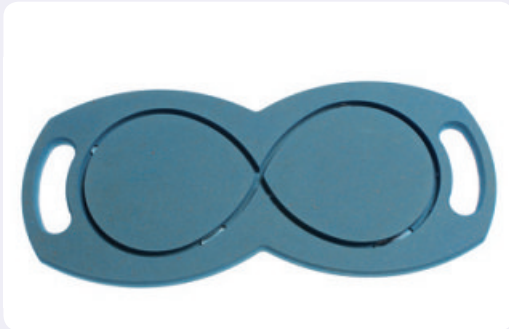

Skillful Games

Experiment with colourful water.
 Tip: Please use water colours.
 Always empty the water after use.
 (The colours can discolour the labyrinth.)

FASCINATION WATER DROPS

43857 Lying Eight For Water Drops
 13x29cm, H = 1cm

With the two handles the Lying Eight For Water Drops is also suitable for little children. If accidentally the water drop gets lost, simply insert a new one with a pipette or injection and the race starts again.

43855 Water Drop Labyrinth
 Ø = 25cm, H = 1cm

CONCENTRATION TRAINING

43830 Marble Labyrinth
 Ø = 30cm

If you manage to complete the labyrinth with one marble try with two ...

If you would like to extend the game with more marbles, you'll find Wooden Marbles (10225) on page 90.

81001 Wheel Yo-Yo, red
 Ø = 8cm

Challenging Building Sets

Recommendation
6+

CONSTRUCTION SET CONICAL TOWER

The most common form of African architecture is a round hut with a tapered top made of brick earth or stone. This building set is designed to develop a feeling for this construction method. One can build conical constructions up to 22cm in height.

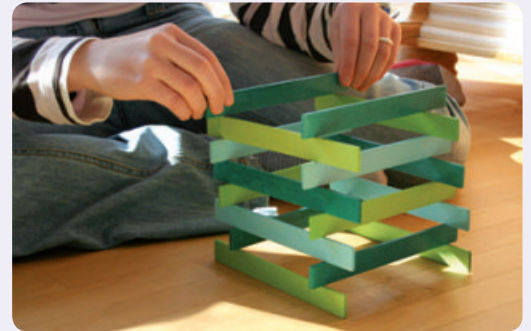

10157 Conical Tower
129 pieces, H = 2cm

Set of 2 wooden frames:
Ø = 24cm, 71 pieces
Ø = 22cm, 58 pieces

Here combined with Building Set
Shapes And Colours 10065, page 41.

LEONARDO BRIDGE BUILDING SET

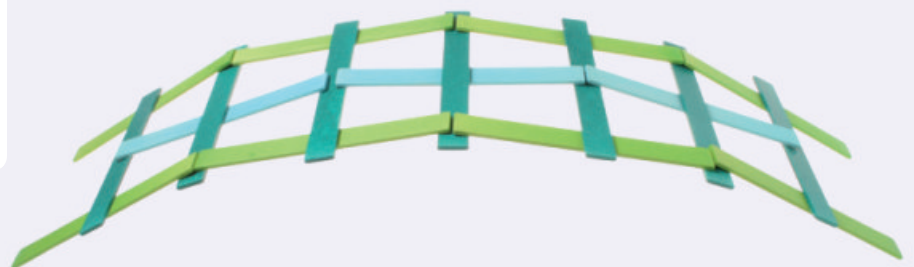

This completed bridge stands without glue or a cord and without a nail or screw. Admittedly, one needs a quiet hand and some finesse to set it up.

The ingenious inventor of this bridge construction is none other than Leonardo da Vinci. By following the set up instructions, one can understand the brilliance of his design. The beauty of it is that you can start with one or two modules, which can then be extended step by step to become a larger bridge.

Many other challenging constructions can also be built!

40365 Leonardo Bridge
40 wooden bars made of linden wood,
in a wooden box with plexiglass
bars 2x18cm, H = 3mm

Create Small Art Objects

DESKTOY

10183 Hexagon
9 pieces in box, H = 2cm

10181 Angle Cube
9 pieces in box, H = 2cm

Things in Motion

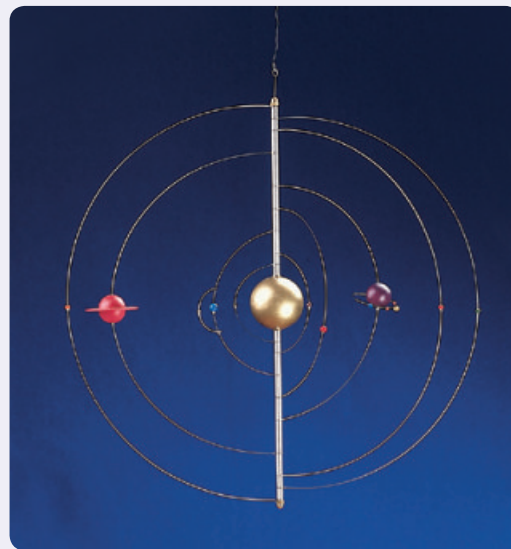

69990 Astrolabium with Stand
Ø = 40cm
Stainless steel, wire, wood, beads

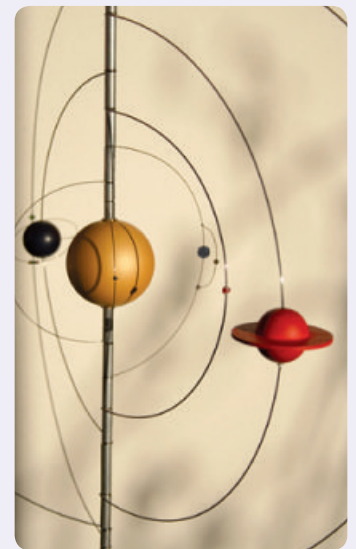

Design: Malcolm Brook

Leaflet with a description of the planets (incl. Pluto) and a short biography about the artist is included.

A symbolic representation of the relation and sequence of planets.

70000 Hanging Astrolabium
Ø = 40cm
Stainless steel, wire, wood, beads

Things in Motion

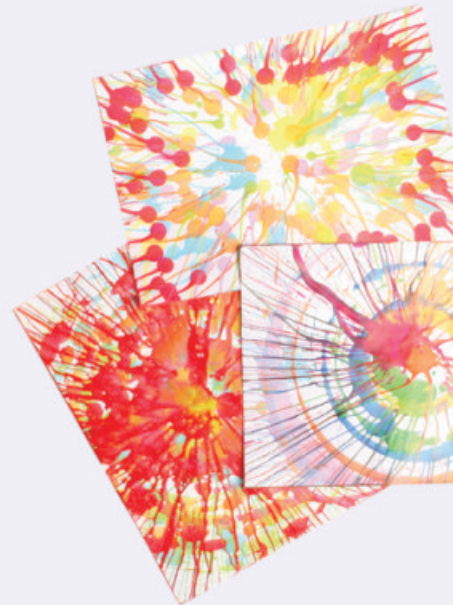

80000 Painting Wheel
 revolving disc $\varnothing = 38\text{cm}$
 incl. 4 syringes

Recommendation
 6+

For summer fairs, birthdays, open days,
 school fairs ...

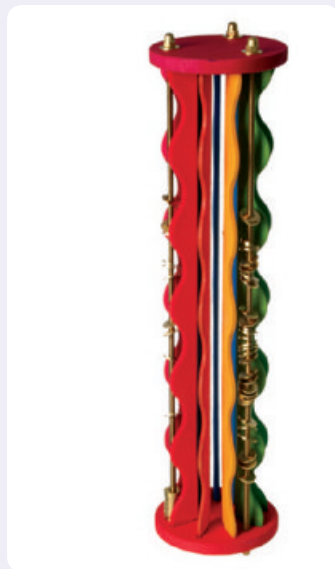

80050 Spirelli
 L = 52cm

Recommendation
 3+

A captivating plaything for all ages (from 3 years up – grownups love it too). Simple yet smart, fascinating and colorful. Hold the spirelli upright, then turn upside down and watch the wooden rings cascade down the spiral, making a cool whooshing sound as they go.

Wooden rings are made from beechwood. Special wire for stability. Can be bent many times and will not break.

80100 Waterfall
 L = 48cm, $\varnothing = 12\text{cm}$

With 3 metal bars: by turning the waterfall upside down, small metal washers run down in a spiralling motion, creating a similar sound to running water.

43900 Assembly Set Ball Run
 base plate $\varnothing = 24\text{cm}$, H = 47cm

Children love assembling this by themselves, sorting and placing the colours at their discretion. They'll have rollicking marble races in the double spiral run. You can have a marble race against another marble, a bead or a bell. It moves so fast. Listen! Which ball is the quietest? Which makes the most noise? After a few games, rainbow run can be taken apart and arranged in a different colour set-up, and the fun starts all over again.

If you would like to extend the game with more marbles, you'll find Wooden Marbles (10225) on page 90.

- Contents:
- 1 base plate of solid wood
 - 1 center rod
 - 80 little wood panels with center holes assorted by colour
 - 176 wooden dowels assorted by colour
 - 2 spacer sleeves
 - a start bowl
 - 1 terminating bead for the center rod
 - 4 bells

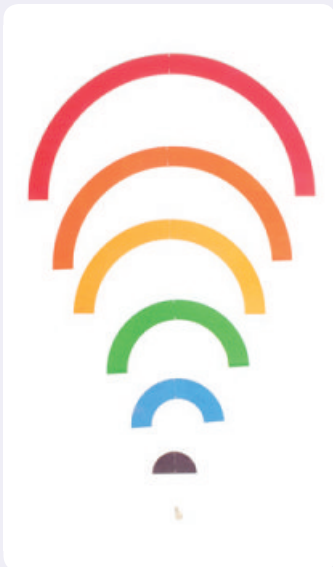

Things In Motion

MOBILES, L = ca. 70-80cm

When the sun shines on the crystal at the base of the mobiles, all seven colours of the rainbow suddenly appear, sending out beautiful bright hues that dance around the room! Even on rainy days, the mobiles are a cheery and comforting sight.

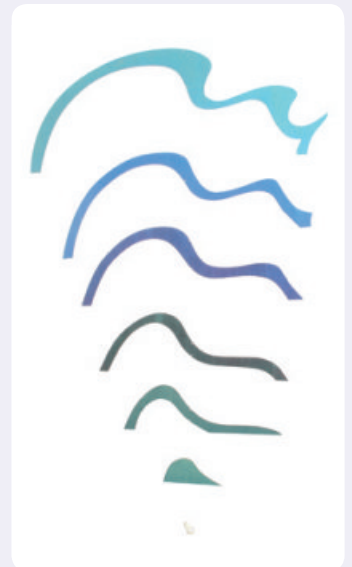

70240 Mobile Rainbow with crystal

70243 Mobile Earth with crystal

70242 Mobile Fire with crystal

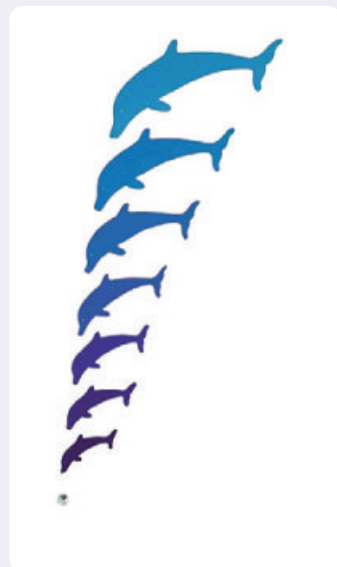

70241 Mobile Water with crystal

70244 Mobile Little Flower with crystal

70220 Mobile Harmony Wings

70230 Mobile Dolphins with crystal

The products 70240-44 are made in cooperation with handicapped people.

Experience The Seasons

Each segment of the Annual Ring represents 1 month (dark blue represents January, purple represents December). Each week a candle or marble moves one hole further, for instance on Mondays.

A figure can be placed in the inside hole and something relating to the month in the bowl, a birthday gift or a large candle.

You'll find the Wooden Marbles (10225) of the Circular Disc For Year Calendar as a separate item on page 90.

03010 Circular Disc For Year Calendar
35 wooden marbles, Ø = 50cm

03000 Annual Ring
Ø = 38cm

03050 Assorted Figures
12 figures, 1 brass holder

03020 Annual String Chain, in cotton bag
372 beads, 8m string, Ø = 20mm
12 colours

10310 Mini Garden, with cotton bag
Ø = 13cm, 13 dowels

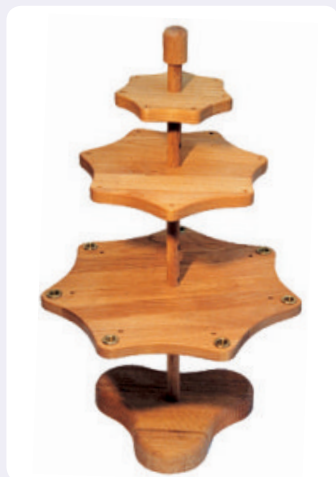

Each day one bead is threaded on the string. The children realize one day, one week, one month, a year. Ideal for decorations in the kindergarten.

You find dwarfs on page 20.

Experience The Seasons

FOR DECORATIONS WITH FLOWERS, FRUITS, PUPPETS ...

08900
Seasonal Festivity Stand
H = 60mm, Ø = 43cm, alder
incl. 7 brass candle holders

According to Karl-Heinz Flau.
One can vary the height of the layers. There are 7 holes in the lower area for candles. For displaying a postcard or picture, a groove is in the base.

Threading Games

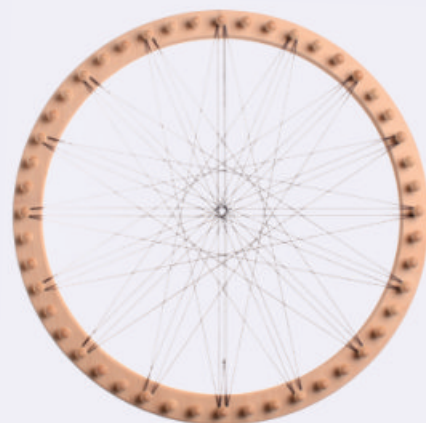

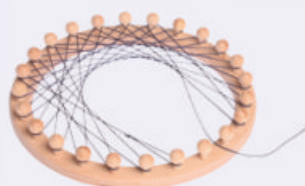

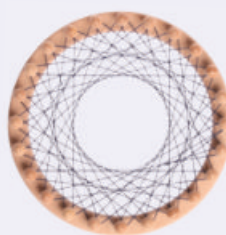

WEAVING FRAME

10320 Weaving Frame, small
Ø = 17cm, 24 dowels

10330 Weaving Frame, large
Ø = 37cm, 48 dowels

10332 Butterfly to Thread, natural, incl. 3 strings, L = 16

10333 Butterfly to Thread, orange, incl. 3 strings, L = 16

10334 Fish to Thread, natural incl. 3 strings, L = 15

10335 Fish to Thread, blue incl. 3 strings, L = 15

Celebrations

Children love rituals and we are glad to offer you a wide assortment of **handcrafted festivity decoration** so you will be able to celebrate birthdays and other festive days within your family by creating a special atmosphere on each of the occasions.

Long ago a world wide fan base was founded, who invents new **daily, monthly or yearly rituals**, for which all our decorations are a wonderful fit.

This is why for example there are families, who light up a seasonal decorated birthday ring every evening during dinner to celebrate their common family time.

Birthday and Table Decorations

Useful Things

Actually this chapter should rather be called **»little treasures, which we love, because we can use them so beautifully in many ways«**. Because this headline would have been too long, we decide to go with the lowest common denominator – just **»useful things«**.

Clothes-Pins

Robust Clothes-Pins, much to many a mother's chagrin, are a favourite toy!

Our Clothes-Pins are for large & small people alike: Ideal for hanging up cloth when making a play house, for doll's washing and they also can be used as a clip on a piece of string for displaying artwork, photographs ...

50550 Clothes-Pins
14 pieces

50560 Clothes-Pins

For Sorting and Collecting

50700 Bowls, Ø = 11cm
50701 Bowls, Ø = 13cm

10299 Sorting Helper
12 pieces in a wooden frame, 31,5x24,5cm

Ideal storage for the Colourful Year Chain (03020), this Sorting Helper can also be used to sort and keep all the coloured wooden beads from our standard offering. (pages 33-34).

Children love sorting the beads. And if things somehow get out of order, they usually also love to put things back in order again. Great also for holding pencils, pens, scissors, etc.

FOR DECORATING AND PLAYING

10225 35 Wooden Marbles
in cotton bag, Ø = 20mm

Fits to our Assembly Ball Run 43900 (page 74), to Marble Labyrinth 43830 (page 71) and our Circular Disc For Year Calendar 03010 (page 76).

62050 Precious Stones Purse
12 different precious stones
and short descriptions of
each.

A natural product! A different
choice of shapes and colours.

43099
100 Acrylic Glitter Stones
Ø = 13-25mm
